

Primates quiz one Open book Take out a couple of sheets of paper and answer each question with a couple of sentences – **not long essays**. 2 points each

1. Name the four major groups of primates; how are they related to each other in the Linnaean hierarchy?
2. What are the General differences between anthropoids and prosimians?
3. Name and describe the five or so basic types of locomotion.
4. Name and describe the four or so basic types of tropical forests.
5. Name and describe the half dozen basic types of social structures of primate troops.

BONUS What is “Life History”?
