

August 8, 2000

Take Home QUIZ Due Thurs Aug 10 for full credit, accepted late with some loss of points.

1. (5 points) Choose ONE question:

A. What are the differences that cause scientists to put the Gelada baboon and the mandrill/drills into different genera from *Papio*?

B. Or: What are the arguments and characteristics that are relevant to the question: How many species are there in the genus *Papio*?

2. (5 points) How has feminist primatology challenged the traditional viewpoint of Old World Monkey social structure and sexual behavior?

Name \_\_\_\_\_

Bonus: Why is the Barbary macaques sometimes (erroneously) called an “Ape”?
