COLLEGE OF HEALTH
AND HUMAN SERVICES

NURSING

(SECOND DEGREE OPTION)

B.S. IN NURSING (B.A. / B.S. TO BSN OPTION)

The B.A. / B.S. to BSN Mobility Option is for graduates of a bachelor's degree program in a non-nursing field. Baccalaureate nursing education provides a broad foundation in the sciences and liberal arts necessary for preparing professional nurses who are capable of practicing in a competent and responsible fashion as informed citizens in a dynamic and diverse society.

Graduates of the baccalaureate nursing program are expected to demonstrate competencies consistent with being a critical thinker; a culturally aware person; a knowledgeable coordinator of community resources; a politically aware professional; a beginning practitioner whose actions are consistent with professional, legal and ethical standards; an effective communicator; a competent provider of healthcare; a person who exemplifies a positive professional image; and a responsible manager.

DEGREE REQUIREMENTS

The BA / BS - BSN Mobility Option requires a total of 123 credit hours. Acceptance into the program requires a minimum cumulative grade point average of 2.5 or higher and a minimum pre-nursing grade point average of 3.0.

- Professional Growth & Empowerment
- Clinical Nursing Practice Capstone
- 20 credit hours of practicum experience

Students should consult with the department and their advisor for additional information concerning prerequisites, course content and academic counseling.

PROGRAM HIGHLIGHTS

The School of Nursing has fully qualified faculty, many of whom are certified in their specialty area.

The National Licensure pass rates for graduates of the IU Northwest School of Nursing are among the highest in the state of Indiana.

The School of Nursing is housed in the College of Health and Human Services, which allows students to collaborate with students in other healthcare professions. An example of such collaboration is the Inter-Professional Education project, which allows nursing students to work with medical and social work students on a combined, patient-focused project.

WHAT CAN I DO WITH A B.S. IN NURSING?

The U.S. Health Resources and Services Administration (HRSA) projects a shortage of one million registered nurses in 2020. This escalating shortage signals a promising career in nursing.

Upon completion of the nursing program and passing of the national registered nurse licensure exam, graduates will have opportunities to practice in a variety of settings or pursue an advanced degree.

HANDS-ON LEARNING

The School of Nursing has a state-of-the-art learning laboratory, which has both mid- and high-level technology simulation equipment for practice of skills prior to actual clinical experiences.

In addition, students have supervised clinical experiences throughout Lake and Porter Counties as well as in the Chicago area during the program of study.

CLUBS AND ACTIVITIES

Undergraduate nursing students are eligible for membership in the National Student Nurses' Association, Indiana Association of Nursing Students and the IU Northwest local chapter. The chief purpose of the organization is to aid in the preparation of students for the assumption of the professional nursing role.

RELATED DEGREE OPTIONS

RN to BSN (12-month completion program for nurses with two-year degrees)
B.S in Nursing (traditional option)
