UIT Northwest Support Center

IU Secure Wireless Connectivity for MAC

1. Click on Airport (the symbol in the upper right hand corner).
2. Click on IU Guest.
3. Open a web browser (Safari, Firefox, etc.), if not already open, and type iuware.iu.edu in the address bar at the top and press Return.
4. On the IUware page, select the IU Secure Assistant (or select it by clicking on Network & Printing in the Software Categories on the left side of the pane, and then choosing the appropriate wizard).
   a. Only for OS X Lion (10.7) – Select the IU Secure Configuration Profile instead.
5. Download and follow the screens to install the wizard. You will be prompted to input the password to your laptop during the installation.
6. After installation, click on Airport. Select IU Secure.
7. Take Your Time and Enter Your User Name and Passphrase Correctly the First Time. You may have to enter it again, if prompted.
   a. If you cannot connect, restart your Mac and repeat steps 5 & 6.
8. Open a web browser and go to https://dhcp.iu.edu to register your laptop.
9. Read the information on the registration page, and then click Continue.
10. Log in using your university username and passphrase.
11. Read the User Agreement, and then click I Agree at the bottom to proceed.
12. For the LSP Username (optional): box, leave it blank.
13. Click Register Now.
14. A confirmation message appears and asks you to close the browser and turn off your computer.

There may be up to a 10 minute wait before the registration takes effect. That’s it. Your device is registered.

For more information on how to connect to IU Secure go to kb.iu.edu. Search for IU Secure and select your operating system.
