IU Northwest

IU Secure Wireless Connectivity for Windows

1) Determine your version of Windows: Windows 7, Vista or XP. Click Start in lower left corner and find Computer or My Computer in the right pane. Right Click on it and select Properties. Your version of Windows will be displayed near the top of the window.

2) Go to the Notification area in the lower right corner of your PC screen and click on the Wireless Network Connections icon. Select IU Guest and click on Connect. You may get a pop-up window asking to “Set a Network Location.” Click Public Network on the pop-up window, then close it. (IU Guest only gives access to IUWare and IU Knowledge Base sites.)

3) Open a Web browser: Do NOT log in to the Public Access page. Instead, type iuware.iu.edu in the address bar at the top and press Enter. On the IUware main page, click on Network & Printing, then click on IU Wireless Wizard. Download and Run the wizard software.

4) Follow the screens to install the wizard. When prompted to select a Wireless Adapter: Do NOT select the Virtual Wireless Network Adapter. Click Yes, Remember my credentials on the next screen so that you will automatically be logged in to IU Secure when you are in range of the network.

5) Go to the Wireless Network Connections icon and click on it. Select IU Secure and click on Connect.

6) Enter your IUN Username and Passphrase when prompted. You may have to enter it multiple times. For Vista and Windows XP operating systems, also type ADS in the Domain field.

7) If you cannot connect, restart your laptop and try again.

8) Open a web browser and go to https://dhcp.iu.edu to register your laptop.

9) Read the information on the registration page, and then click Continue.

10) Log in using your university username and passphrase.

11) Read the “User Agreement,” and then click I Agree at the bottom to proceed.

12) For the LSP Username (optional): box, leave it blank.

13) Click Register Now.

14) A confirmation message appears and asks you to close the browser and turn off your computer. There may be up to a 10 minute wait before the registration takes effect. That’s it. Your device is registered.

For more information on how to connect to IU Secure go to kb.iu.edu. Search for IU Secure and select your operating system.
