

**Indiana University Northwest
College of Health and Human Services
Curricular Remonstrance Report
May 21, 2009**

School of Nursing

To Be Changed

S481 Nursing Management (fixed at 2 credit hours)
change to: variable from 2 to 3

Justification:

| | | |
|--|--|---|
| Senior: S481 Nursing Management Didactic (2 cr.) | Senior: S481 Nursing Management Didactic (3 cr.) | Additional content and topics need to be included in lecture: nursing informatics, The National Patient Safety Goals, disaster planning, operations research, queuing theory, quality improvement processes |
|--|--|---|

S482 Nursing Management: Practicum (fixed at 3 credit hours)
change to: variable from 2 to 3

Justification:

| | | |
|---|---|---|
| Senior: S482 Nursing Management Practicum (3 cr.) | Senior: S482 Nursing Management Practicum (2 cr.) | The Nursing Management Practicum, set at 3 clinical credits, is extremely difficult to schedule for the requisite number of hours. Front line patient care managers find it difficult to provide educational experiences for the number of students we have. Scheduling them with Charge Nurses is a duplicate experience, as many students work with the charge nurse during their capstone rotations. |
|---|---|---|

B245 Health Assessment: Practicum (fixed at 2 credit hours)
change to: variable from 1 to 2

Justification: The majority of information is in the didactic B244, which is a 3 credit hour course. One credit hour is three contact hours per week and is adequate time for the students to learn the hands-on component of physical assessment.
