

## Student memberships in Professional Organizations.

The IUN Anthropology Club will contribute to student memberships in national or local anthropological associations for all Anthropology BA majors who have at least sophomore standing. The club will contribute up to \$50 per student per year for up to three years. Awards are given for these associations, but not limited to these: American Anthropological Association, Society for American Archaeology, American Association of Physical Anthropologists. Students should pay for such memberships and submit receipts to Bob Mucci, the club advisor, for reimbursement.
