- James Ussher
- Binti Jua
- Boucher de Perthes
- Jean-Baptiste Lamarck
- Charles Lyell
- Herbert Spencer
- Thomas Malthus
- Carolus Linnaeus
- George Cuvier

- _____ "On Population" said that animals reproduce faster than the food supply grows, leading to a struggle for survival
- _____ evolution by spontaneous generation, use and disuse of organs, environmental change, and inheritance of acquired characteristics
- _____ rescued a young boy who had fallen, causing us to awake from Anthropodenial
- _____ born the same year as Linnaeus, wrote about 40 *Histoire naturelle*, wrote of an old Earth and change in animals who migrate to new environments; said dinosaurs are real; dug them up to display
- _____ calculated the earth was less than 6000 years old
- _____ geologist who built on Hutton, showed catastrophism was in error, inspired Darwin
- _____ the first geologist to use idea of Uniformitarianism
- _____ everything is evolution; Social Darwinism and a struggle for survival
- _____ Lightening rocks are the stone tools of earlier humans, not natural objects
- _____ animals do not evolve; the geology of catastrophism just makes it look like they do
- _____ in *Wisdom of God*, came up with ideas of genus and species
- _____ classified animals and plants by important physical characters, gave binomial names

10. What do we call the idea that Natural Laws do not change? (Thus the natural processes we see today were the same in the past. Example: gradual processes like erosion and deposition shaped the earth.) A. Uniformitarianism B. Catastrophism
 C. Evolution D. Epistemology

PRINT FIRST NAME _____ LAST _____

What was the evidence and logic that Thunderstones were NOT produced by lightning?

"So what's this? I asked for a hammer!
 A hammer! This is a crescent wrench! ...
 Well, maybe it's a hammer. ... Damn these stone tools."
