

November, 2005

TO: All IU Employees

Employee Self Service for Payroll will soon be here!

All IU employees on all campuses will be given access to the PeopleSoft Employee Self Service through IU's OneStart web portal the week of December 5, 2005. The initial rollout of this self service is for an employee's personal payroll activity, including online paycheck information and online payroll direct deposit.

All campuses and employees should have access by Friday, December 9. When your access is activated, you will receive an email telling you about Employee Self Service, where to go in OneStart on the web, and where you may direct any questions. Until then, if you need information, please speak with your department's payroll staff.
