

Indiana University Northwest
School of Education
OPTION II INITIAL PROGRAM
Professional Teaching Dispositions Acceptance

The Professional Teaching Dispositions adopted by the Indiana University Northwest School of Education and the UTEP Policy Board promote and support Candidate development of professionalism as outlined in state and national standards. These standards are developed in the SOE Conceptual Framework, incorporated throughout the Initial Program, and are expressed with twelve disposition statements.

I have been informed on what the dispositions are, why UTEP adopted the dispositions, when assessment can and will take place, who assesses Candidates' dispositions, and the process for assessing and evaluating Candidates' dispositions.

My signature affirms that I received, understand, and agree to the Indiana University Northwest School of Education Professional Teaching Dispositions and evaluation process.
