

The Technology Council

- Ensures IU Northwest is equipped with information technology and services consistent with the vision, mission, and strategic priorities of IU Northwest.
- Supports the strategic direction of the campus.
- Enables the achievement of annual operating goals.
- Includes the capacity to respond to unexpected opportunities for improvement.
- Includes the capacity to respond to unexpected opportunities for improvement.

Principles

The Technology Council ensures information technology recommendations and initiatives

- Promote the unique identity of IU Northwest as a campus of IU, and an institution known for excellence in cultural discovery and learning, and sustainable regional vitality.
- Promote information technology that supports excellence in learning, teaching, scholarship, student services, and public service.
- Support the learning needs of IU Northwest’s diverse constituents.
- Are consistent with campus’ strategic priorities and university priorities and strategic plan “Empowering People” for information technology and include innovative technology implementations.
- Are in full compliance with university policies, and federal and state laws.
- Promote technological access to public information for the local community.
- Leverage and cultivate partnerships and networks for innovation and mutual advancement.
- Support a sustainable information technology infrastructure.
- Protect and preserve the security of university data.

Information Technology Services (ITS) - Works with the campus groups (listed above) to create a technology plan for the IU Northwest Campus which meets standards as set forth by UITS and the Information Technology Strategic Plan 2 (ITSP 2) and strategic priorities established by IU Northwest.

ITS submits plan to the IU Northwest Council for review/discussion/endorsement.
