Garrison Wynn Keynote Speaker

Garrison helps people make the jump from being great at what they do to developing the qualities it takes to be consistently chosen for the job. He gets them to understand why their products, services, or leadership styles—or those of their competitor—are selected. As he says, “If the world agreed on what’s best, everybody would choose the best and nothing else would be considered. Decision making doesn’t work that way.” His presentations help people become more influential regardless of circumstances.

Garrison has presented to some of the world’s most effective leaders and business developers, from multibillion-dollar manufacturers and national associations to top New York Stock Exchange wire houses. He has a background in manufacturing, telecom, and financial services and toured as a professional stand-up comedian. In his teens, Garrison worked with Magnavox and baseball legend Hank Aaron to promote the world’s first video gaming system, and by age 27 he became the youngest department head in a Fortune 500 company’s history. He researched and designed processes for 38 locations nationwide and developed and marketed products still being sold in 30 countries. He is the author of the Amazon.com bestseller *The REAL Truth About Success*, has contributed weekly to *The Washington Post*, and has coauthored with Stephen Covey. His award-winning success tools receive high praise, but his greatest strength is a magnetic live performance that keeps him in high demand, with more than 600 inquiries and 100 speaking dates per year.
