

ANNOUNCING A NEW – INNOVATIVE PROGRAM
DEPARTMENT OF COMPUTER INFORMATION SYSTEMS, IUN

Want To Finish Your College Degree In Three Years?

If yes, the Accelerated Degree Cohort Program that leads to a Bachelor of Science Degree in Computer Information Systems is for you! You will take the same number of classes as you would in a four-year program. You will need to take a full load during each of six semesters and take additional courses during summer semesters. That's it. Follow the plan and you will graduate with a BS degree in less than 36 months.

\$1,000 Scholarship support for a Three Year College Degree?

The full-range of financial support is available for students enrolled in this program. In addition, the University has made money available for a limited number of \$1,000 scholarships for students who are enrolled in this program.

What Can You Do With a Degree in Computer Information Systems?

Students who have completed a BS in Computer Information Systems often gain employment as a:

Applications Programmer Analyst	Systems Administrator
Business Analyst	Systems Analyst
Database Administrator	Systems Architect
Network Administrator	Systems Integrator
Software Developer/Computer Support specialist	Systems Programmer/Project leader

The Advantage of the Cohort

You will proceed through the CIS program with a group of fellow students with similar goals. Cohort programs provide an active, interactive, and dynamic setting for students to grow their knowledge and skills. Rather than the traditional learning, cohort programs bring students together to build community, foster creativity, build leadership skills, and encourage greater success.

Contact Information

If you are interested in pursuing this opportunity or want more information call (219) 980-6638 or stop by Hawthorn Hall Room 325.
