On October 17, 1990 Dr. Tyrone Bledsoe created the first chapter of the Student African American Brotherhood/Brother2Brother (B2B) on the campus of Georgia Southwestern University. Its mission was to address the challenges males of color were facing.

Specifically the B2B program provides academic support in the form of study skills seminars, financial aid planning, academic advising, increased motivation, time management, and the development of leadership skills through a focus on community service events and campus engagement.

The B2B mission statement encourages members to “empower ourselves and promote brotherhood by embracing the principles of accountability, proactive leadership, self-discipline and intellectual development.”

Academics
The top three priorities of B2B is “Academics, Academics, Academics!” We strive to ensure that each B2B member has access to resources required to remain on track to obtain their undergraduate degree from IU Northwest and position themselves for graduate course work if that is their desire. The national motto of SAAB/B2B is: “I am my Brother’s Keeper, and TOGETHER we will rise!”

Community Service
B2B members give back to the community in many ways. The B2B signature event is the annual Earth Day Clean Up which takes place each April in Gary, Indiana.

Since the fall of 2008 when members assisted local residents in cleaning up flooded basements after the Calumet river flooded, B2B members have served the community by partnering with the Boys & Girls Clubs of Northwest Indiana to mentor local youth and regularly assist at local food pantries.

Summer Bridge Academy (SBA)
The Brother2Brother Summer Bridge Academy is a two-week orientation on the IU Northwest campus, and is designed to allow male incoming freshmen an opportunity to get acclimated to college life.

The students are exposed to a variety of speakers from the various academic departments at IU Northwest as well as presenters from the business community and community service organizations who are committed to bettering our communities.

At the conclusion of the SBA, participants become eligible for a textbook stipend to offset their expenses for books and academic supplies during the Fall and Spring academic semesters.
