**DV’s for Non-Employee Travel Reimbursements**

1. The non-employee traveler must sign the DV Payee Certification form **before** they can be reimbursed for their trip. This form can be signed sometime during their campus visit.

      iii. Select Search
      iv. Select “Return Value” for the applicable payee (this will populate the payee’s address information on the DV).
   b. Leave the Check Amount field blank for now; you will fill this in later.
   c. Select the desired Payment Method (normally check or ACH for a non-employee).
   d. Select “T – Travel Management” as the Documentation Location Code.
   e. Fill in the Check Stub Text.
5. Scroll to the Non-Employee Travel Expense tab and fill in the Traveler Information as well as the Destination Information. **Note:** The Start/End Times default to the current time. **These times will need to be changed to reflect the traveler’s actual start and end time (from the time they leave their home to the time they return home). This is very important as it will determine how per diem is calculated.**
6. Fill in the Per Diem section only if per diem is being claimed; otherwise, leave this section blank. All food expense must be claimed as per diem (not as Other). If the calculated amount is being decreased, include the lesser amount in the Actual Amount field and include an explanation for the change in the Justification for Change field. **Note:** If meals were provided by the campus, the amounts must be deducted from the Actual Amount and detailed in the Justification for
Change field. (i.e. 1 Dinner was provided on Sunday - $26.00, 1 Lunch on Monday - $15.00).
Again, this is very important because we cannot reimburse twice for the same meal.

7. Fill in the Personal Vehicle section only if mileage is being claimed; otherwise, leave this section blank. If the calculated amount is being decreased, include the lesser amount in the Actual Amount field. Use MapQuest or a similar online tool to calculate the mileage and upload the printout with your supporting documentation.

8. Complete the Travel Expenses section with the following (only for expenses that were paid directly by the non-employee). Food expenses cannot be claimed in this section, and gas cannot be reimbursed if mileage was claimed:

      i. Enter the expense type code in the Company Type Code field.
      ii. Select Search.
      iii. Choose “Return Value” for the applicable Travel Company Name. If the company name that corresponds to the expense type is not listed, return “Other”.
   c. Enter the amount of the out-of-pocket expense in the Amount field.
   d. Select the Add button to add the expense to the document.
   e. Repeat steps ‘a’ thru’d’ for each out-of-pocket expense being claimed.

9. Complete the Pre-Paid Expenses section of the Non-Employee Travel Expense tab if expenses have been charged to an IU account using IU’s prepayment programs (hotel or airfare). 10. Select the Save button.

11. Scroll up to the Accounting Lines section of the document and enter the account information. **The object code for non-employee travel is 4089.** In the Amount field, enter the Grand Total amount listed in the Traveler Expense section of the Non-Employee Travel Expense tab.
