Kuali Financial System Coming in December, 2012

Award Account Digest will be replaced by KC Award Notice

The IU Award Account Digest is a tool used by Grant Services staff to distribute information to departments when an Award Account has been established. The digest includes key information about the award such as account number, title start date, stop date, terms and conditions, etc. The current Digest notification will be replaced by the Kuali Coeus Award Notice. The benefit of the Award Notice is that it provides more information about the award than the current Digest. Departments will still be informed of the availability of an account for immediate use on active projects.
